CATALOGUE 2021-2022

Moving forward in 2022

Teachers and educators have gone from strength to strength in responding to the various challenges of 2020 and 2021. While Australia has been luckier than most, plenty of teachers still have to deal with shortened terms, remote learning and less planning time. As always, teachers have shown their resourcefulness and ensured that students are focused on their studies. This is why we believe that we have our part to play in supporting teachers. Our student workbooks and their accompanying digital tools are designed to make the lives of teachers and students a bit easier. With our emphasis on practising, reinforcing and consolidating, these resources can be beneficial in anchoring students' progress in key areas.

Now, with even more challenges coming in 2022, do you have everything you need?

HOW DOES NEW WAVE MENTAL MATHS HELP TEACHERS?

'My kids loved this book.'

The pictures are amazing, very bright and colourful. I would definitely recommend!

Tina Prochella

'Love the inclusion of the problem-solving section!'

Chloe Scott

'A teacher friend recommended this resource; I am blown away by how far my Year 4's have come in such a short space of time. I would 100% use this product again!'

Maddie McC

'Love this book!'

So handy for NAPLAN practice. The questions are ideal for warm ups and consolidating before we begin a topic.'

Kate Farnig

'New wave mental maths is great! I have used a variety of levels to suit different grade levels and abilities. The days-of-the-week sections make it a simple way to do a warm up in a maths lesson. At the end of week, Friday reviews are so handy to keep track of their progress and to inform what we need to cover more of or extend on.'

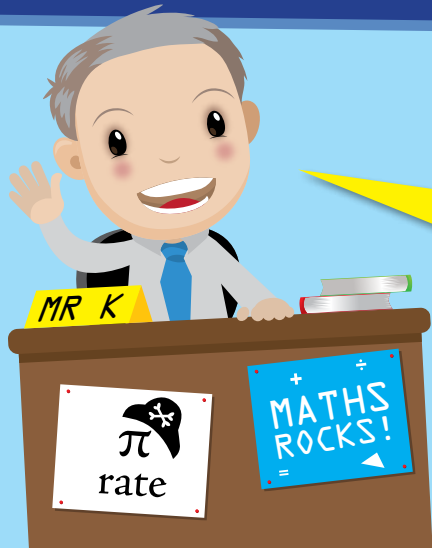

Jill S

'These books are awesome! I have purchased the correct level for each class member to give them all daily revision of a range of maths concepts. The students love the colourful presentation and the format of the books and daily activities.'

Di McCosker

HOW DO STUDENTS KEEP MOMENTUM OF THEIR LEARNING? A word from the author: Eddy Krajcar

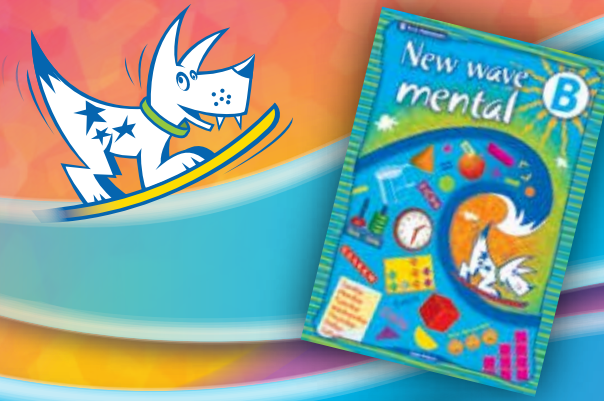

'When I started teaching in the early 1990s, I found that a large number of students lacked understanding and skills of simple maths, like telling the time, basic facts, money and simple strategies. Traditionally, these skills are taught and worked on once and then forgotten. I find that this is causing a tremendous strain on both teachers and students and is the main reason I've developed *New wave mental maths*. The workbooks provide a way to reinforce taught concepts through repeated practice and lift students' overall maths results.'

GIVE STUDENTS THE BEST OPPORTUNITY TO SUCCEED

With over 20 years of research and continuous development, our bestselling series is still the top mathematics practice resource for the modern classroom. Visually rich and engaging, *New wave mental maths* provides daily practice to increase students' fluency and automaticity in all three maths strands. Have a closer look at this workbook and find out how it can make a difference in your school today!

Fully linked to Australian Curriculum Mathematics, with innovative solutions covering all three strands.

WELL-DESIGNED PRACTICE ACTIVITIES TO ACHIEVE GREAT RESULTS

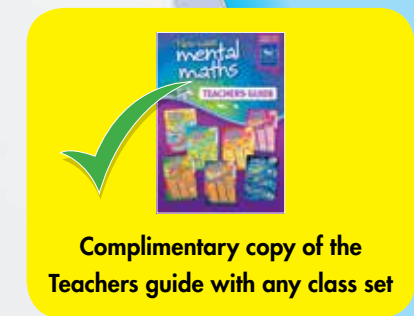

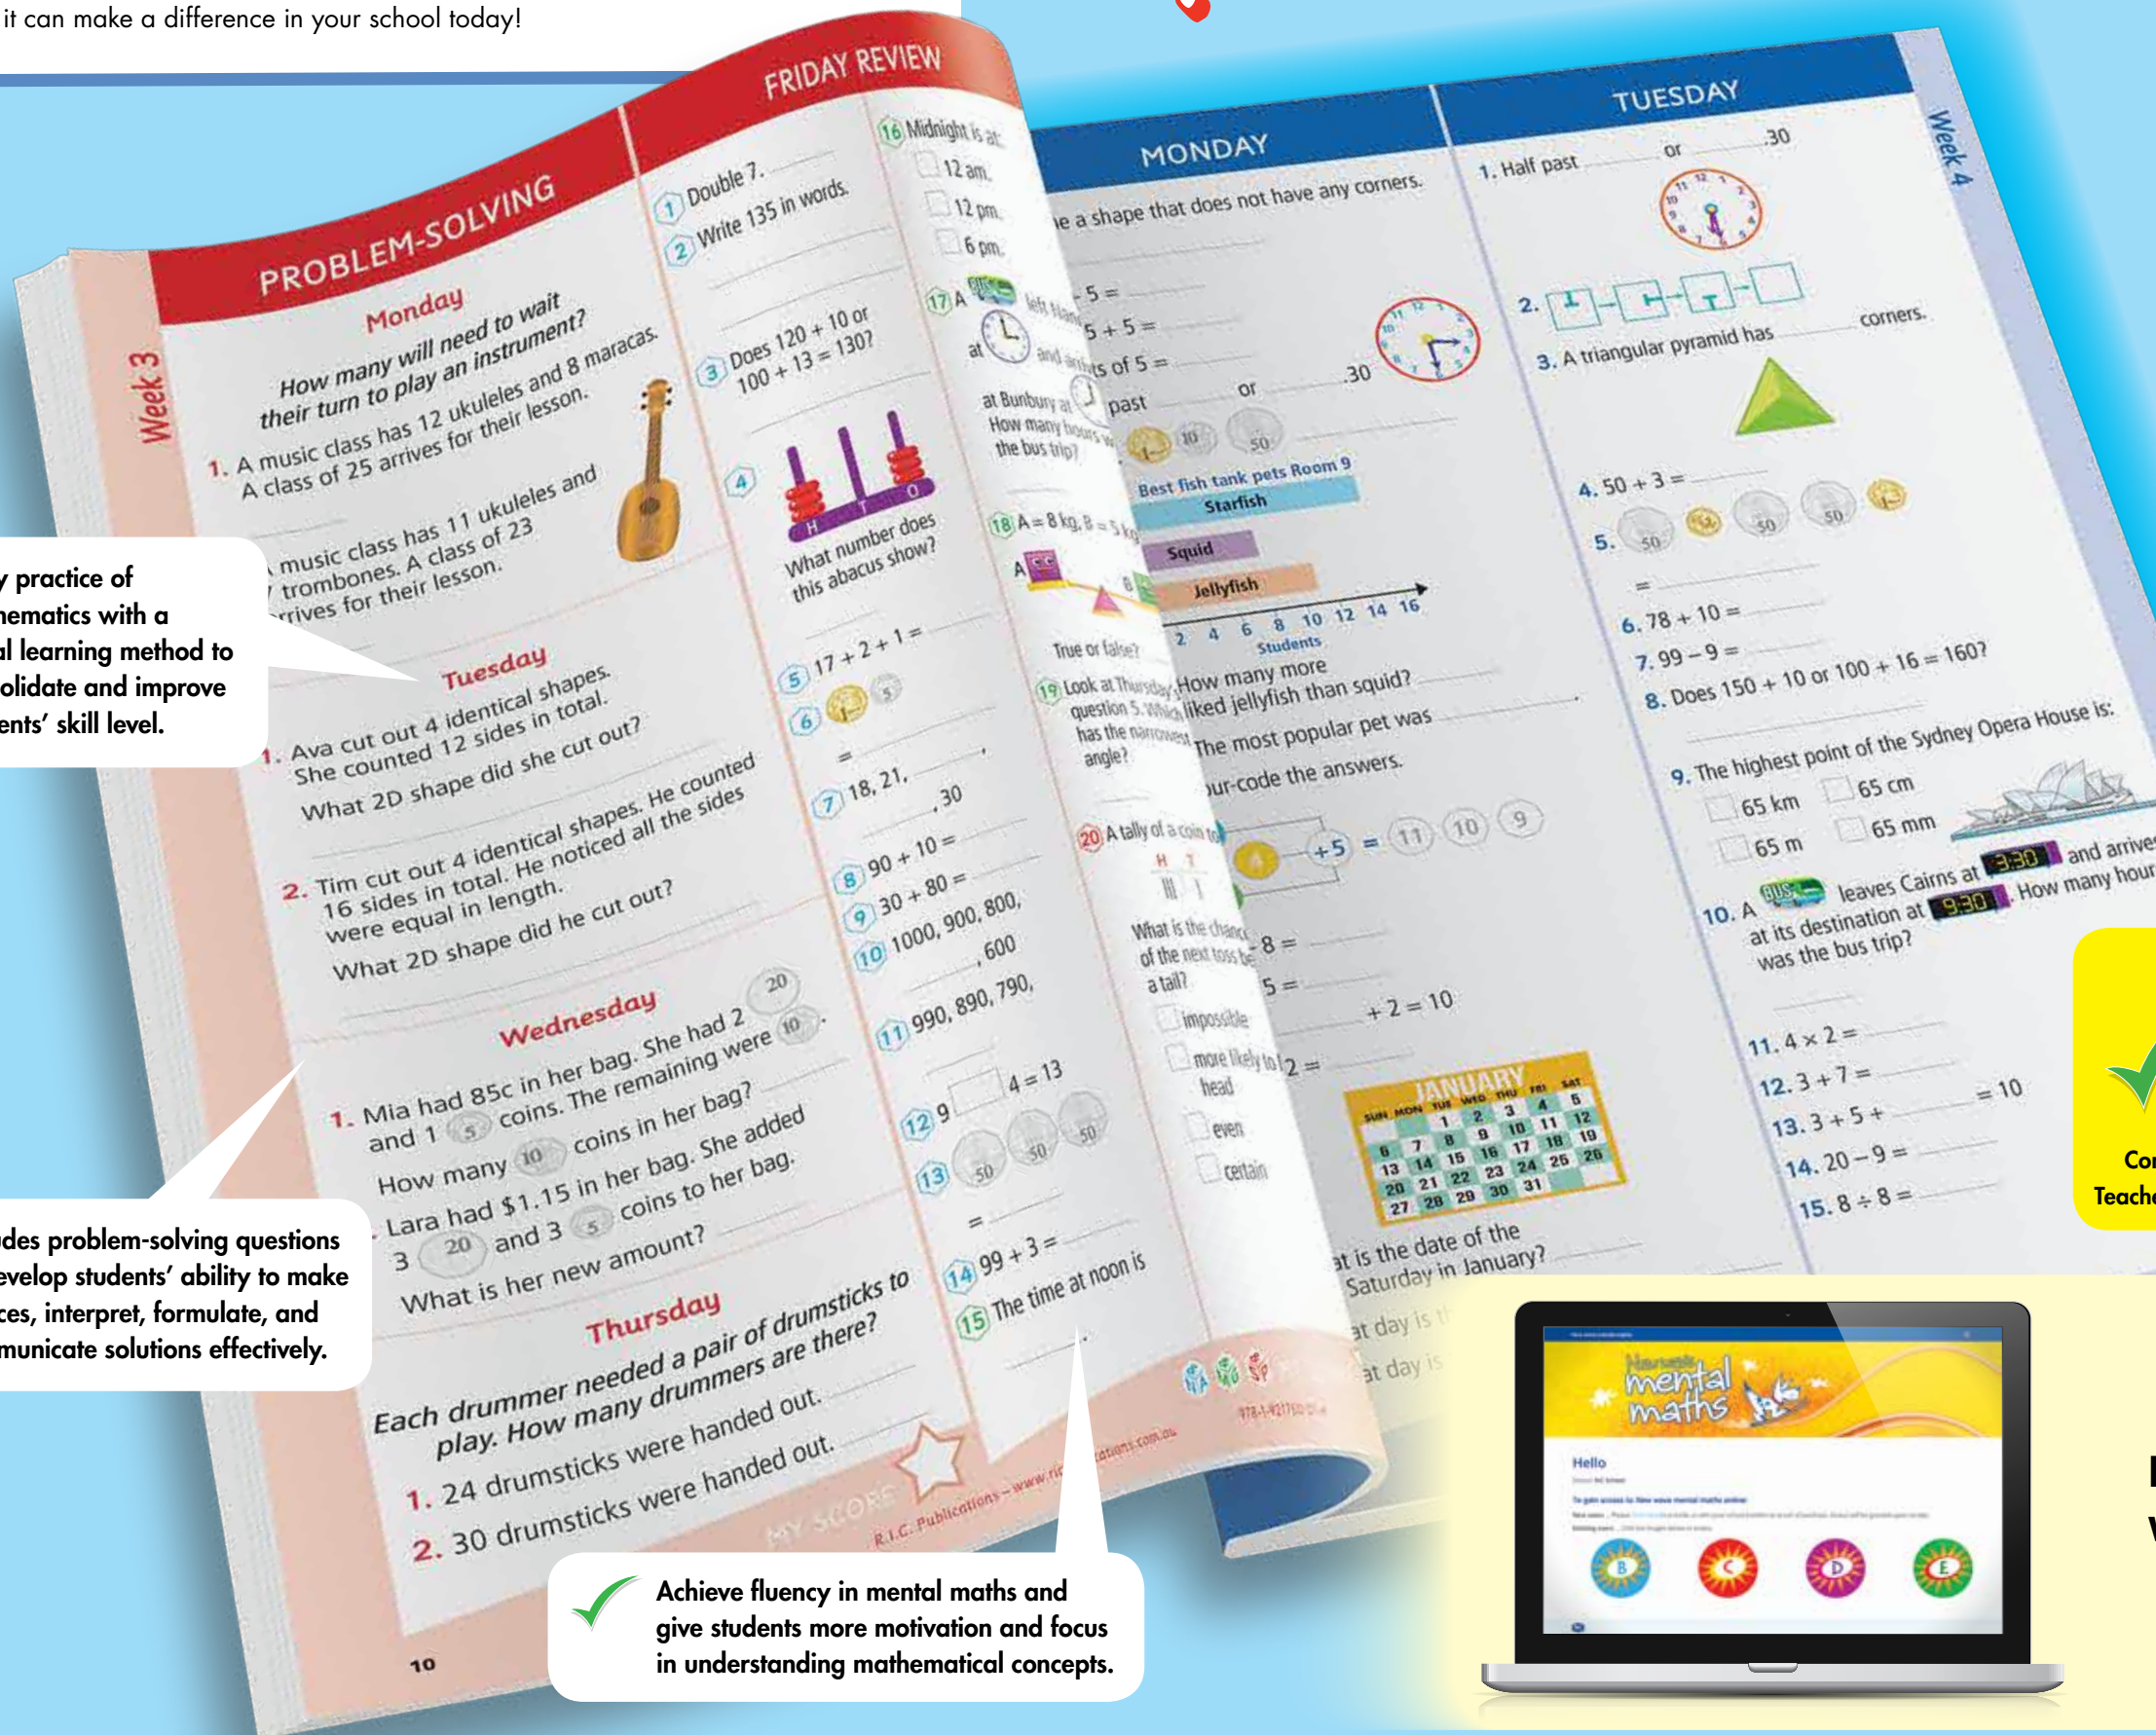

KEY INFO:

- ✓ Six-workbook series
- ✓ Suitable for Years 1 to 6
- ✓ 200 days worth of maths problems in each book

Daily practice of mathematics with a spiral learning method to consolidate and improve students' skill level.

Includes problem-solving questions to develop students' ability to make choices, interpret, formulate, and communicate solutions effectively.

Achieve fluency in mental maths and give students more motivation and focus in understanding mathematical concepts.

HOW DOES HANDWRITING TODAY HELP STUDENTS AND TEACHERS?

'There are few supportive handwriting programs and teaching resources for Year 6 students; however, *Handwriting today* provides me with developmentally appropriate activities and great teacher support for my year six students.'

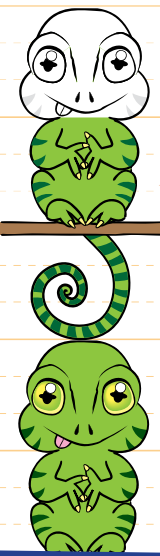

Brett, Year 6 Teacher

'Our school loves the *Handwriting today* series and feels the transition of skills throughout the series are perfectly timed for our students.'

Lana, Year 2 Teacher

'Our students love the characters and the colourful formation patterns in *Handwriting today*. I love the progression of the books and the inclusion of some fun cross-curricular activities.'

Anne-Marie, Year 1 Teacher

PROVIDE A GREAT FOUNDATION TO HANDWRITING A word from our literacy expert: Debbie Hendriks

'When I began teaching, handwriting was a priority and taught in all classrooms. However, in today's crowded and demanding curriculum we've seen an understandable decline in the teaching of handwriting. Adding reduced handwriting opportunities, due in part to the dependency on technology, means that when students are asked to complete written tasks, they struggle, due to the lack of the required handwriting and cognitive skills.'

Research has shown that explicit handwriting instruction and repetitive practice is essential for students to achieve automaticity and legibility; however, finding the time and appropriate resources has proved difficult for teachers.

Handwriting today incorporates a structured, developmentally-sequenced whole-school handwriting program with cross-curricular activities, developed specifically to meet the needs of students and teachers.'

Debbie Hendriks

HANDWRITING TODAY

for NSW Foundation style and
Victorian Modern Cursive

REINFORCE AND CONSOLIDATE EVERY DAY

1

PLAN

Plan handwriting lessons through the guidance of the Teachers guide. Prepare students adequately by showcasing the right fundamentals—posture, grip models and much more.

2

DEMONSTRATE

Demonstrate the correct letter formations using the complementary online tool, as well as the additional activities provided in the Teachers guide.

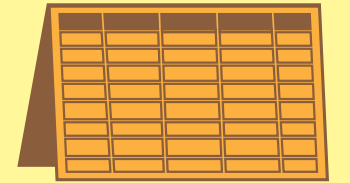

4

4

ASSESS AND REMEDIATE

Continuously track students' progress and identify areas that require remediation. Use the assessment templates for formal assessments to gather evidence of students' progress.

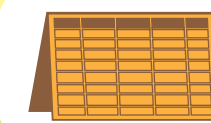

3

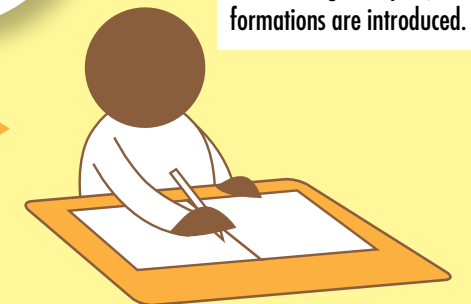

3

PRACTISE AND REINFORCE

Lead students to practise and reinforce successfully through the workbooks. Help them grow and improve their skills through the year, as new formations are introduced.

2

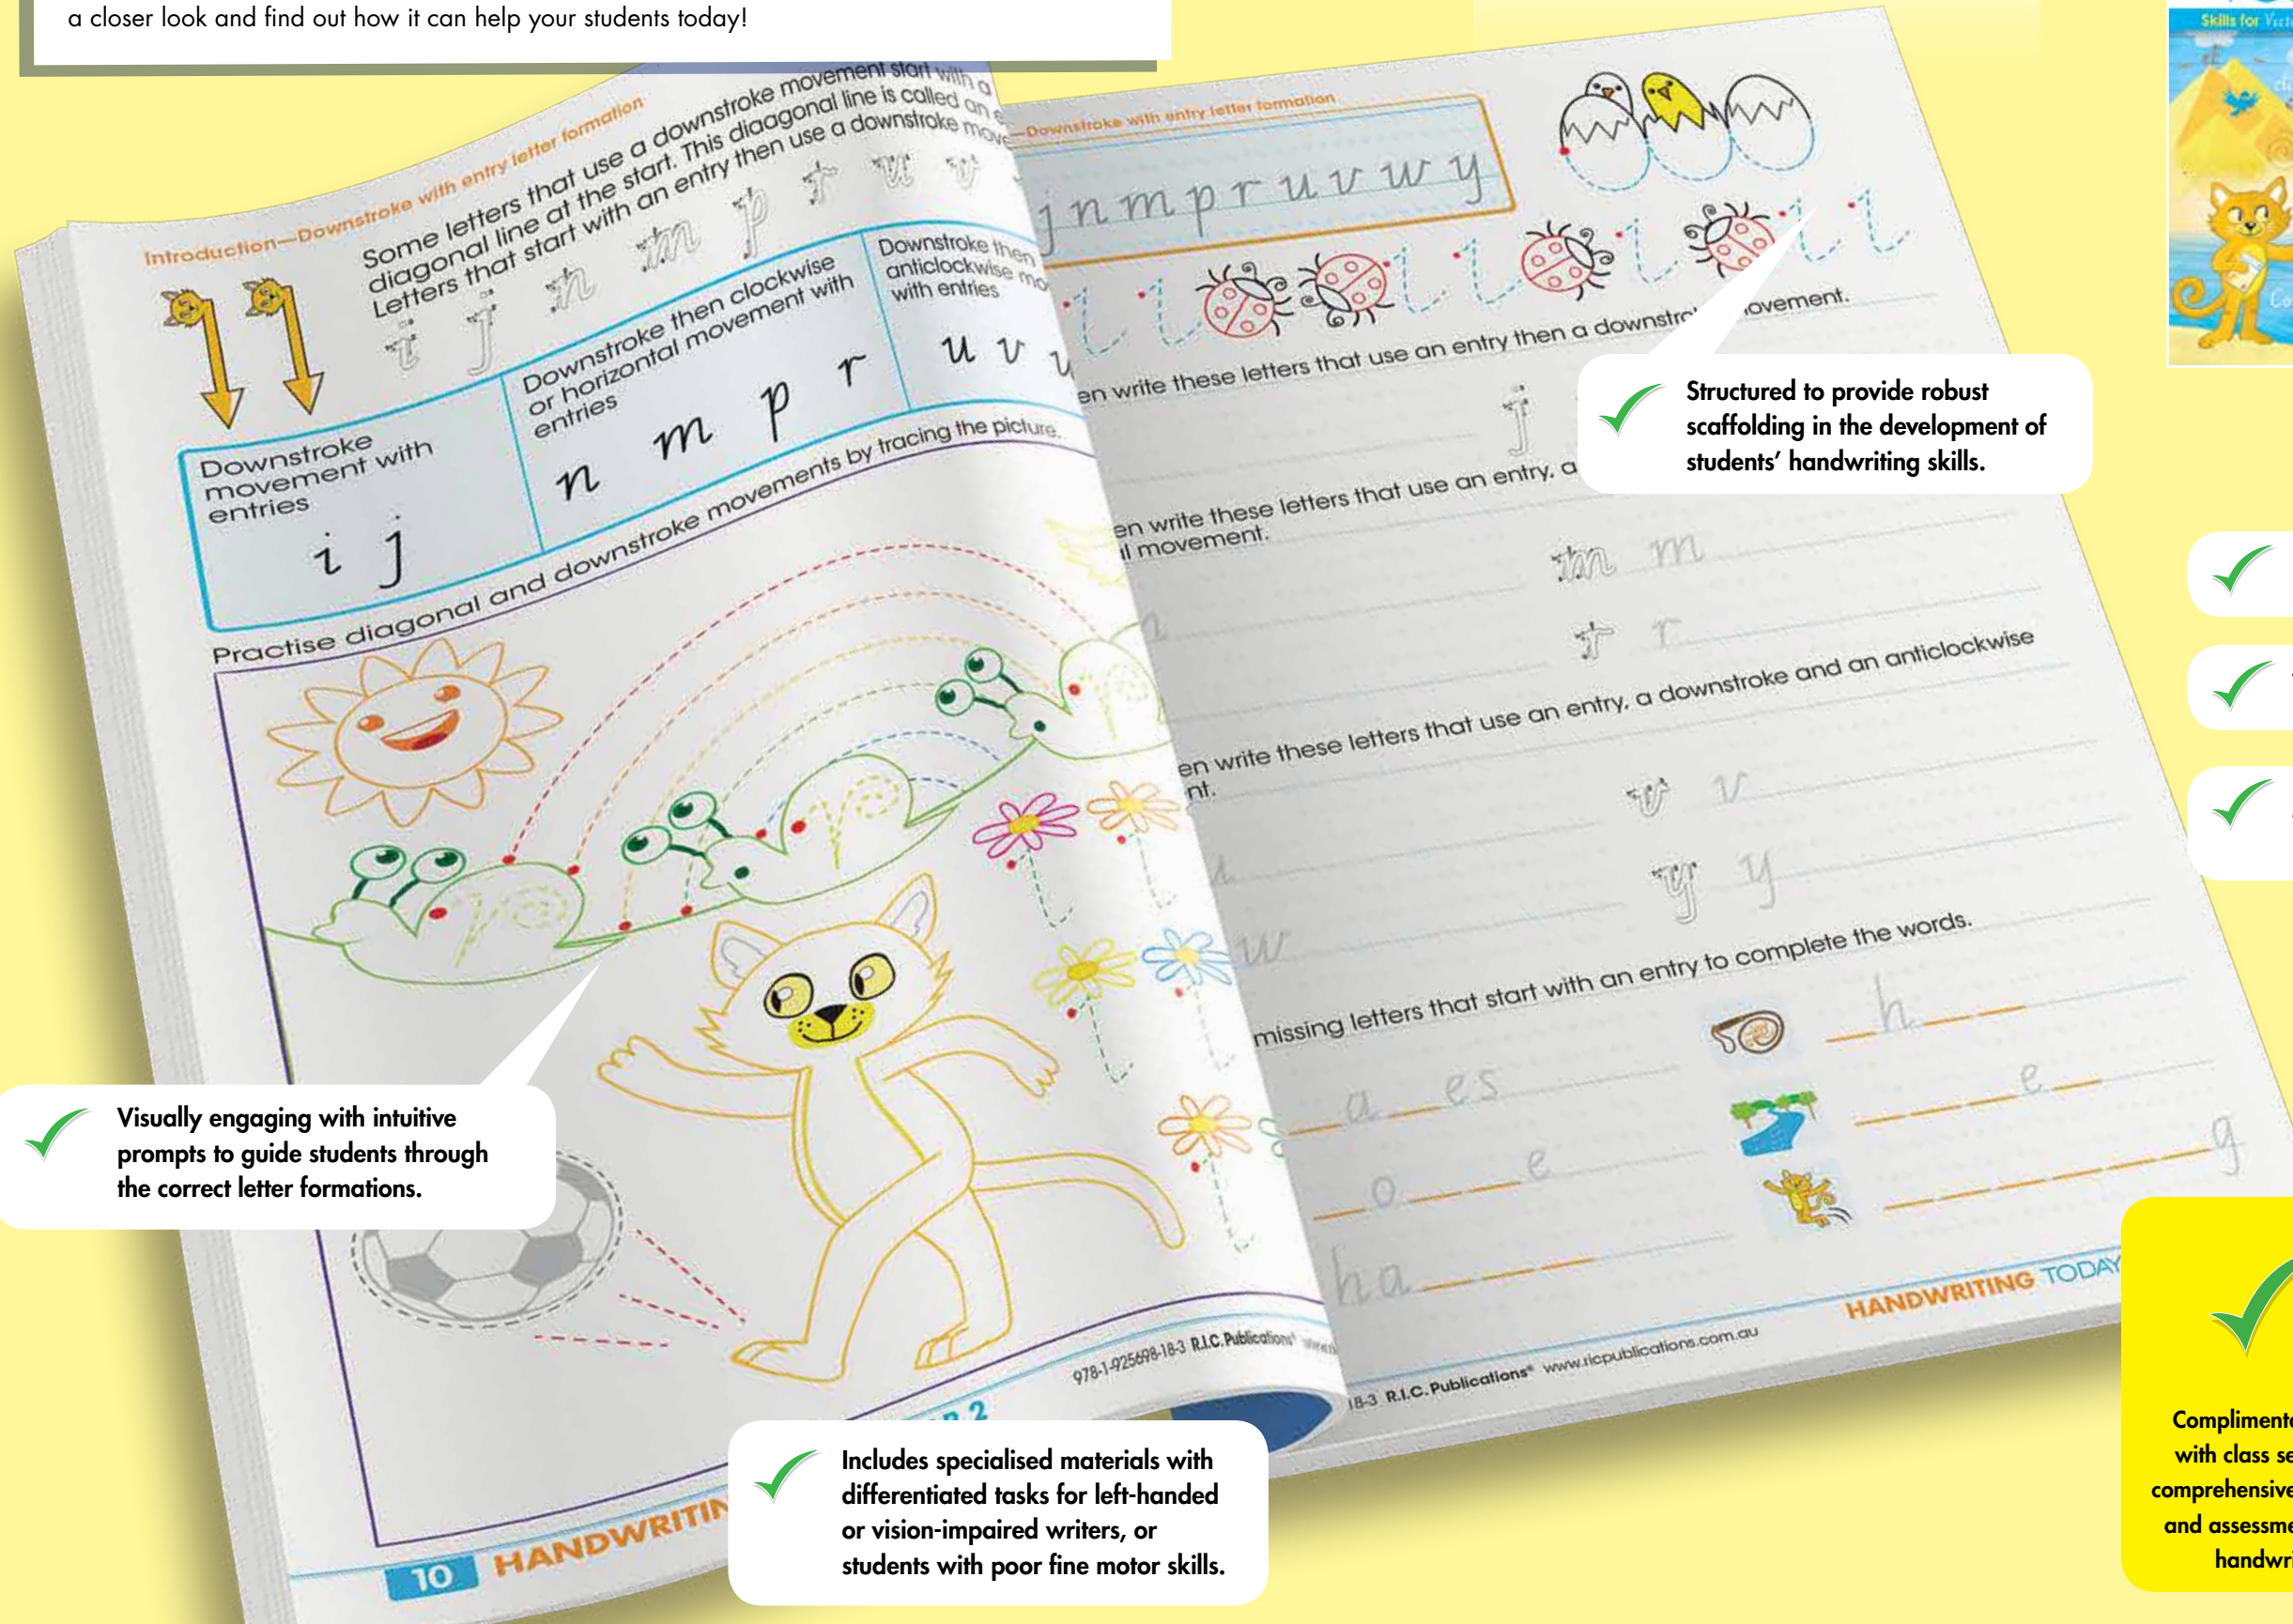

IMPROVE READING FLUENCY THROUGH GREAT HANDWRITING

Give your students the practice they need to write legibly, fluently and quickly in order to succeed. By achieving mastery of handwriting through repeated practice, students can concentrate on developing their ideas rather than on their effort to write. *Handwriting today* is whole-school program that will give you the support to plan and execute a successful handwriting strategy. Have a closer look and find out how it can help your students today!

HANDWRITING TODAY

English skills practice

DETERMINING, CONSOLIDATING AND LEVELLING STUDENTS' LITERACY SKILLS

A word from one of the authors:

REINFORCE AND CONSOLIDATE EVERY DAY

'At the time of writing, there occurred—as often happens in education—a big push towards grammar and punctuation. It was felt that student knowledge in this area was lacking. Many teachers, themselves, did not have the literacy knowledge or confidence to support students. Following the success of the mental maths series, a complimentary series for literacy was developed using a similar format. The aim of the workbooks was to provide short daily practice of spelling, punctuation and grammar, allowing teachers to identify areas of student weakness, consolidate previously-taught concepts and provide simple examples of concepts for students who may not have learned it originally.'

Noeline Pullen

HOW DOES ENGLISH SKILLS PRACTICE HELP STUDENTS AND TEACHERS?

'This book really helps to consolidate and develop my students' ability and confidence to use English. The children in my class really enjoyed completing the 10 questions and enjoyed discussing the answers within their small groups.'

Ashley Azzopardi

'The books challenge children and provide repetition to support children in their learning. They are a steal for the amount of work provided in them. They have improved children's spelling, punctuation and grammar through daily repetition in our class. A must for every booklist!'

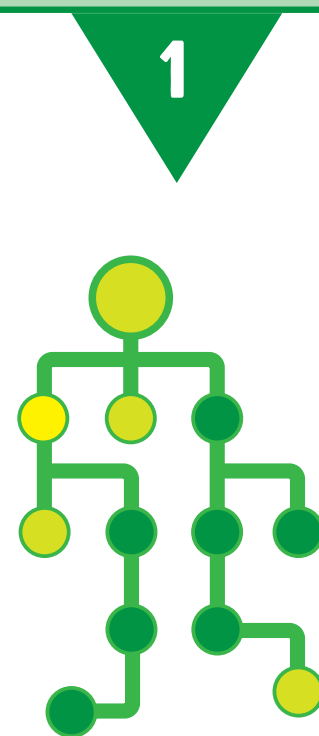

Elaine Joy

'We love these books for revising all grammar topics throughout the year. They use technical vocabulary and exam-style questions to quickly touch on lots of different aspects of grammar.'

Claire Orr

'This is my first year using English skills practice and it is an amazing book. It draws attention to grammar as the building blocks of sentences, and language, and focuses on what children need to know in order to understand the nuances of texts rather than prescriptive, repetitive exercises on one topic at a time.'

Alan Ó' Ceallaigh

STRUCTURE

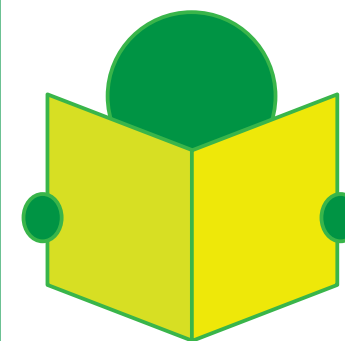

Structured to provide meaningful support to your English program.

Improve students' understanding of already-taught English concepts through comprehensive and structured daily practice.

2

SKILLS

Develop the skills and knowledge needed for English mastery.

Covering phonics, spelling, grammar, vocabulary and punctuation, the program progressively improves students' overall literacy skills.

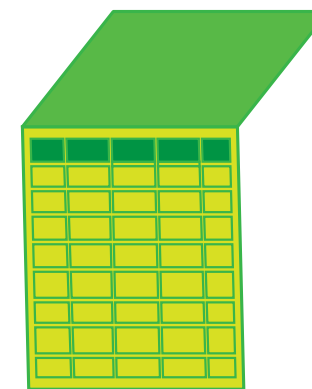

3

PROGRESS

Assess and continuously track progress through the year.

Track students' progress and identify problematic areas early.

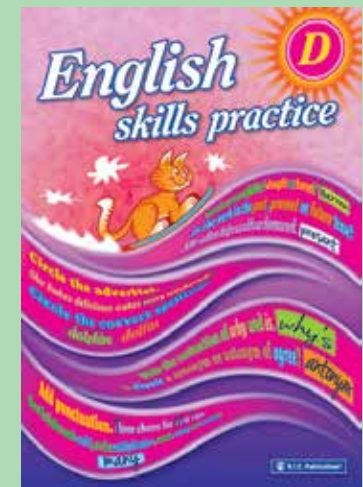

Designed to be used flexibly, different weeks can be allocated as the class requires.

PRACTICE MAKES PERFECT

Looking to improve students' clarity, correctness and richness in writing? Provide repeated, daily practice of already-taught literary concepts and see students' English fluency progress in leaps and bounds. *English skills practice* covers phonics, spelling, grammar, vocabulary and punctuation. Consolidate and develop students' ability and confidence in these key areas and help them excel.

DAILY CHALLENGES TO BUILD YOUR STUDENTS' LANGUAGE SKILLS

✓ **Energise your English program through comprehensive and structured daily English practice to consolidate students' ability to read and write.**

✓ **Inclusion of spelling, punctuation, phonics, word knowledge and grammar will build students' confidence as they master these concepts.**

✓ **Target confusing words and common errors in writing and help students clear hurdles to achieve better results.**

KEY INFO:

- ✓ Six-workbook series
- ✓ Suitable for Years 1 to 6
- ✓ Reinforce English skills over a 40-week period

✓ **Track progress and provide feedback through students' record sheets, perfectly paired with the complimentary Teachers guide.**

✓  Complimentary copy of the Teachers guide with any class set

Spelling workbook

A BETTER WAY TO PRACTISE SPELLING
A word from one of our authors:

'As teachers, we understand that students learn best when spelling is taught systematically and in a structured manner over time. When writing the *Spelling workbook*, it was our mission to incorporate this understanding to create an effective tool for teachers and students alike that is not only engaging but also promotes independent learning. To achieve this, we adopted a metacognitive approach, encompassing strongly embedded strategies to help develop independent spellers through a variety of activities. The accompanying interactive download gamifies the learning experience and further engages students on their spelling journey. By incorporating multiple aspects of thinking in the series, we have ensured that students not only learn how to spell but also learn how to retain and use these words in context.'

Hayley McDermott

HOW DOES SPELLING WORKBOOK HELP STUDENTS AND TEACHERS?

'This is a beautifully presented book. The children like the colour and layout. It groups words according to word families or grammar rules (e.g. contractions). The structure is the same in each unit so the children can work without much instruction. We cover one unit per fortnight.'

Niamh Dignam, Teacher

'The *Spelling workbook* has an interesting layout with engaging crosswords and word searches, which the children enjoy, and the colour and print is pleasing to the eye. I have used all of them and it's easy for the child to comprehend and answer all the questions independently.'

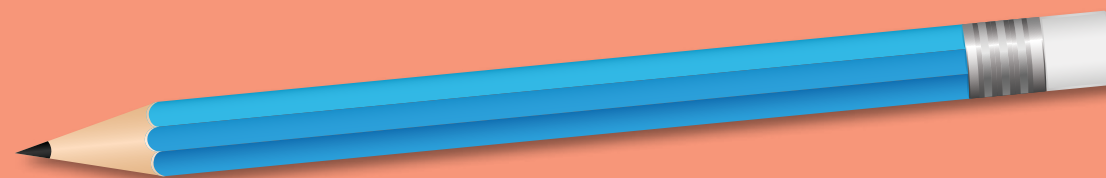

Acquillia M, Teacher

'The *Spelling workbook* is a fantastic scheme that challenges students at an age-appropriate level and always include high-frequency words on the list. The teachers resource book has dictation for every unit, and alternative weeks spelling and dictation has really improved children's spelling.'

Claire Birmingham, Teacher

REINFORCE AND CONSOLIDATE EVERY DAY

Spelling workbook incorporates an online interactive download to create a more effective way to learn to spell whilst having an enjoyable, immersive experience.

	List Words	Practise	Practise	T	D

Book G	Ages 11+	RIC–6273	\$9.95

MY DESKTOP DICTIONARY

My desktop dictionary is designed, written and illustrated to engage young children in their first years of learning. It is a student dictionary that helps develop written vocabulary and contains a wide range of commonly used words. Stimulate students' interest through a popular, high-interest theme for each letter of the alphabet. Help them personalise their learning and use the allowed space to record new words.

KEY INFO:

- ✓ Suitable for Foundation to Year 3
- ✓ Bestselling workbook perfect for early learners

Ages 5–8 RIC-1111 \$6.95

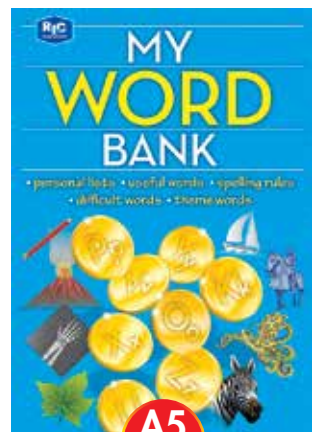

Features:

- contains a wide range of commonly used words, plus space for recording new words
- a blank square at the top right-hand corner of each double page allows children to write letters of the alphabet in their school script
- a popular, high-interest theme for each letter of the alphabet
- lists of commonly used topics and themes

MY WORD BANK

My word bank is a personal dictionary that contains a wide range of commonly used words and space for students to record their own words. This resource is an essential companion for students to help them with any writing task.

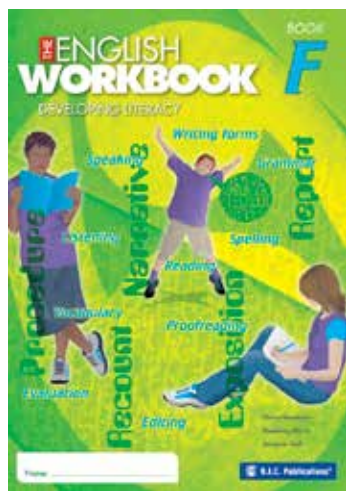

KEY INFO:

- ✓ Essential for writing tasks
- ✓ Year 3 and up

Ages 8–12 RIC-1092 \$5.95

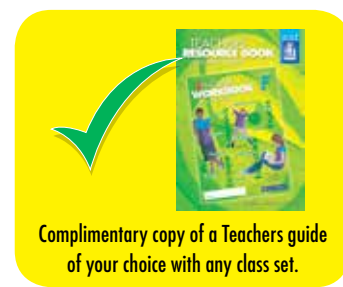

THE ENGLISH WORKBOOK

The English workbook is designed to improve and develop students' literacy skills by helping them understand procedures, recounts, exposition, narratives and reports. Split across 10 units of work, students will be given various literacy practice activities covering speaking, listening, writing, grammar, editing, vocabulary, spelling and reading.

Features

- repeated daily practice of already-taught literacy concepts and skills
- spelling, phonic analysis, word knowledge—as meaning, derivation, suffixes and prefixes—and punctuation and grammar questions included for each day
- a grammatical focus in each unit, enabling teachers to revise a particular grammatical concept either before or after the completion of a day's work

Complimentary copy of a Teachers guide of your choice with any class set.

KEY INFO:

- Seven-workbook series
- Suitable for Years 1 to 7
- Ten units of work based on five writing formats in each student workbook

Book A	Ages 6–7	RIC–6353	\$14.95
Book B	Ages 7–8	RIC–6354	\$14.95
Book C	Ages 8–9	RIC–6278	\$14.95
