

Revision of anticlockwise letters—**a, c, d, e, f, g, o, q, s**

Trace each letter, then write each on the line below.

a a c c d d e e f f g g o o q q s s

Using your best handwriting, copy all the letters in the word wheel into the blank wheel.

Write one word beginning with each letter in the word wheel. Use the other letters to complete the word. Use each letter only once in each word and write each word in your best handwriting.

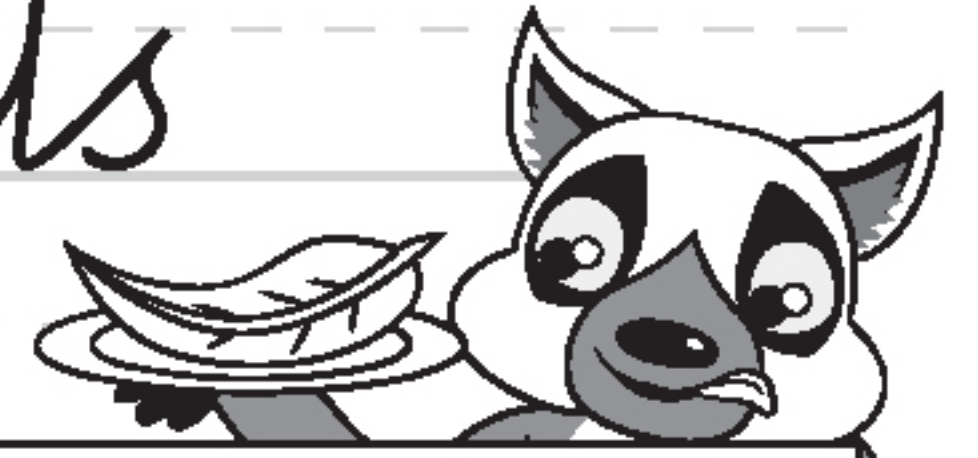

One letter is harder to use to make words than the others. Write one row of that letter below.

Make up six nonsense words using the unused letter and the other letters in the word wheel, then write them below in your best handwriting.

Science— Living things depend on each other

Write the living things listed below in the correct categories.

grass caterpillars bacteria cacti
